

Bolton Care and Repair

Helping people stay warm and safe at home

Bolton Care and Repair is a new partnership which has been set up to offer impartial advice to householders who need assistance with improving or adapting their homes to make them more suitable for their needs.

If you are over 60 years old Bolton Care and Repair is on hand to help you to stay warm and safe at home this winter. We can advise you as a householder about the services available to improve your home and how to make it more suitable for your needs.

We will work with you to find solutions to any home improvement issues including heating and insulation works, fire safety equipment e.g. smoke alarms and we also have a handyperson who can carry out for small repairs (charges applicable).

Also available to everyone is a list of trades people if you simply want extra peace of mind that you are employing a reliable contractor.

For advice or help with home repairs and improvements, telephone us on 01204 335679 to see what assistance is available.

Helping people
stay warm and
safe at home
